Article 32. VOTED, that the Town observe Old Home Day in connection with the two hundredth anniversary of the settling of the Town of Henniker, and raise and appropriate the sum of Five Hundred Dollars, (\$500.00), for same, and the Selectmen be in-

structed to appoint a committee chairman to make arrangements for such observance.

Article 33. VOTED, to reconsider Article 8. VOTED, that earlier action under Article 8 be rescinded. VOTED, that the Town raise and appropriate the sum of Three Thousand Five Hundred Dollars, (\$3,500.00), for the maintenance of the Fire Department, and that the Fire Engineers be empowered to purchase a replacement for one 1945 Ford truck.

Article 33. VOTED, to reconsider Article 25. VOTED, that the Town authorize the Selectmen, when they are convinced, and after consulting town counsel, that it is in the best interests of the Town, except in the case of abandonment of any road only after approval by a regular or special town meeting, to approve the relocation, rearrangement, abandonment and/or alteration of Town roads located within the Hopkinton-Everett Dam and Reservoir Project, and to authorize the Selectmen to enter into an agreement with the United States of America for such purpose, and to further authorize the Selectmen to grant flowage easements over certain of said roads and to discontinue certain other roads at the appropriate time and to take any other action so that construction and operation of said project will not be unreasonably delayed.

ATTEST.

CHARLES H. TUCKER,
Town Clerk

N. B.

The Moderator announced the following rule for the

conduct of future Town Meetings:

Any motion to reconsider any earlier action of the meeting must be made on the calendar day in which the matter to be reconsidered was enacted; or, notice must be given the meeting that such a move would be made on a later date.

No objection to the Moderator's ruling was forthcoming from the floor.

PREVENTION IS YOUR BUSINESS

Carelessness, **HUMAN CARELESSNESS**, causes 9 out of 10 forest fires. Each year 200,000 fires burn over 30 million acres in the United States. This represents 5 per-cent of our nation's woodlands being wasted each year. Every fire takes its toll. Floods follow; stream flow is affected; timber, buildings, grazing and wildlife are des-troyed — all because **MANY** are **CARELESS** with fire in and near woodland. This can be remedied. **YOU** can put an end to this shameful waste! **PREVENTION** is **YOUR** business!

YOU, whether **YOU** be a farmer, homemaker, busi-ness or professional man or woman, municipal, state or federal official, clerk or woodsman can play an important part in the continuing and vital prevention program.

First — by setting a good example **YOURSELF** — being sensible and complying with the necessary laws and regulations governing the use of fire in and near woodlands

Second — by using **YOUR** individual influence in your community and valued council with others in in-sisting and encouraging them to do likewise.

The following simple rules may be used as a guide both for **YOU** and for them.

1. Before burning, secure a permit from your local forest fire warden — the law requires it.
2. Be sure to properly supervise your burning — don't leave it.
3. Make certain your fire, camp or debris, is **DEAD OUT** before leaving it.

4. Don't throw down lighted matches, cigars and cigarettes or from moving vehicles — make sure they are out — use your ash tray.

5. Don't burn at home — use your town dump and save yourself much possible difficulty, both personal and financial.

HEALTH OFFICER'S REPORT

January 5, 1961

The health of the community has been very good since my appointment on September 9, 1960.

A few cases of scarlet fever were reported. The usual precautions were taken to prevent further spreading.

One water sample was taken, tested and found all right.

The schools were inspected in the fall.

All complaints registered with me were investigated and remedied to the satisfaction of all parties concerned.

GEORGE M. PARMENTER, SR.

Health Officer

REPORT OF THE FIRE DEPARTMENT

The fire department answered 28 calls this past year. There were 7 general alarms, 4 house, 2 barn, and one at the West Hopkinton paper mill. There were 21 still alarms, 9 chimney, 2 oil burner, 4 car, 2 rubbish, 1 drowning, 3 stand-by on the radio for Hillsboro (mutual aid).

The 1945 Ford truck was sold and a 1955 Ford 700 was purchased to replace it. The tank and body were transferred. Many hours of volunteer labor by members of the department made it possible to do this and stay within the budget.

A very generous gift was received by the town for use of the fire department from Ronald T. Lyman, Jr. It is to be used to buy protective equipment for the men and also more radio equipment.

REPORT OF THE TOWN PLANNING BOARD

The Planning Board met seven times during the year.

One meeting was held with representatives of the Corps of Engineers to evaluate flood control developments in our community.

Three meetings were held to which local merchants were invited to discuss possible future industrial development. Representatives of the Merrimack Valley Region Association, the State Planning and Development Commission, the N. H. Department of Employment Security and the Concord Chamber of Commerce were present at these meetings. To further this work, surveys of available skills and other studies will be required to provide pertinent data for prospective seekers of industrial sites.

One meeting was held with the town Water Commissioners. At this meeting Mr. Holton of New England College presented the results of a year's efforts by his students. A complete set of plans of the water facilities of the entire community was given to the commissioners. It has been estimated that this work would cost from one to two thousand dollars to duplicate commercially.

It is planned to prepare an official map of street and road names and also to plot additional community facilities this coming year.

Respectfully submitted,
VICTOR H. KJELLMAN,
Chairman, Planning Board

There have been two changes on the High School faculty this year. Mr. Robert J. Scully was employed as English and Social Studies teacher to replace Miss Sandra Greenleaf, and Mr. John Fessenden was employed as High School Social Studies teacher and Junior High Math teacher, replacing Mr. David Whitelaw. Mrs. Evelyn Woollett is starting her first complete year as Principal of the High School.

One of the big problems facing us is the problem of space in the high school. The building was not built for the number of pupils we now have in the various classes, so Mrs. Woollett is having considerable difficulty finding places to schedule classes. The size of the class is just too

large for the size of the rooms. There are now 138 pupils in the high school building arranged as follows with no relief in sight from smaller classes coming along.

HIGH SCHOOL ENROLLMENT

Some adjustments can be made within the present high school building by knocking out walls to make larger class rooms, particularly for our junior high school classes. However, as we eliminate the two tiny classrooms on the second floor, we eliminate two classrooms as small as they are. Very small classes can be assigned to these rooms and they are. If the gym or stage are utilized for class rooms the physical education program suffers. I feel that this is a matter for considerable study.

Certainly Henniker has got to make some decisions in the next few years. The costs of education continue to rise and the property owner continues to pay the lions share of the cost of operation of the school program. There is no question about the fact that Henniker children deserve the best, nor of the fact that Henniker is trying to give them the best. The question is, "Where do we go from here?" Do we continue to be a comprehensive high school and go into a building program for the high school? (Comprehensive high school provides vocational training, shop, commercial and home making.) Do we have an academic high school and provide primarily for our college preparatory people and forget the other 60% of the people

or do we go into a cooperative high school program (grades 9 - 12) or a cooperative school program (grades 1 - 12)? These are questions that are going to have to be answered and they are not in the too distant future.

WILLIAM C. STERLING,
Superintendent of Schools

PRINCIPAL'S REPORT

The responsibilities of education today are manifold. They range from driver training to advanced mathematics, from physical development to art appreciation, from character building to atomic principles, from vocational training to college preparation. No longer does the college open wide its doors to all who wish to enter. College admission is highly competitive, and selective standards will become more rigid within the next five years. Rapid changes are taking place in the labor market, and soon the unskilled worker will be as obsolete as the drinking dipper in the one room school. The rapid advance of the technological age and the world problems it has helped to create challenge the school more than any other institution. No thinking American can fail to recognize that the role of education is to serve society through effective development of the human being. The fulfillment of this role is no easy task.

It is imperative that we in education evaluate periodically our objectives, curriculum and teaching procedures. It is likewise imperative that the citizens be informed about their schools and concerned about the opportunities available to their children in order to evaluate the educational program in which they have invested a large portion of the tax dollar.

There is much that creditably reflects our efforts. We have a dedicated and competent staff. Our curriculum has been broadened. This year we have experimented with an activity program from which many valuable experiences have resulted. Six of our students are enrolled in the

advance science program sponsored by New England College in cooperation with surrounding secondary schools. Continuation of this program will be of considerable benefit to our college-bound students. A followup of the ten graduates of 1960 reveals that three are enrolled in four year colleges, one is attending a commercial college, one is married, one is in the armed service and four are employed. All of this is commendable, but if we are to continue to operate a comprehensive high school in Henninger, we face problems.

No longer can we ignore our crowded classrooms, lack of storage space and inadequate facilities. In 1930 when the school was built there were 96 pupils, five teachers, and a limited curriculum. Today the enrollment is 140, the staff numbers nine and the curriculum includes nearly twice as many subjects as it did three decades ago. Rooms designed for a maximum of twenty must now accommodate thirty-two. Small conference rooms must serve as classrooms and the laboratory is used as a homeroom. The faculty room has been converted to a classroom, the nurse's room to a faculty room, and new quarters for the nurse have been taken from an already overcrowded locker room. Most of these conversions were meant to be only temporary solutions.

Our needs include a larger typing room, one adjacent to a classroom which can be used for commercial classes, two additional rooms for the large junior high classes, a room for library purposes, and storage space.

Within the next three years in the high school we can anticipate a gain of twenty pupils. Without expansion we would then have to educate 160 pupils in a plant designed to fit the needs of 100 students enrolled in a limited curriculum. It appears, then, that an addition to our present plant is immediately urgent. On the other hand, it seems financially unsound to contemplate expansion until after a careful study is made of our present and future needs.

This consideration will involve our willingness to support a school that can provide adequately for the education of our children and fulfill the requirements for accreditation. It is my conviction that in the best interests of us all a study committee should be established without further delay.

Inasmuch as we can not operate our program next year without additional space, the alternative is to hold classes in the gym. By so doing, we probably shall, I regret to say, forfeit not only basketball, but also one of our most recent improvements in the curriculum — a fine physical education program that benefits both the elementary and junior high youngsters.

I wish to extend my appreciation to the school board, the superintendent, the faculty, the students, and the parents for their cooperation and support during the past year.

EVELYN L. WOOLLETT,
Principal

HENNIKER SCHOOL LUNCH PROGRAM

The lunch program opened September 21st and closed May 20th. During this time 23,701 lunches were served; 292 of which were adults.

Again last fall we were fortunate in having fresh vegetables donated to us by people having a surplus in their gardens. These are much appreciated, as they are a great help to our budget.

Two hundred servings of stainless steel silverware was purchased for the lunchroom, along with two silverware trays and salt and pepper shakers for the tables. All these were made possible by the public supper, the music

festival and many friends and organizations that donated to us.

I wish to take this opportunity to thank all who helped make this project a success. Especially my thanks to the grade school teachers for the many extra steps, and time put into making this program a success.
